Titles

A

Abatement of N_2O Emissions Produced in the Adipic Acid Industry 134

Adsorption and Desorption Studies in the Phase for the Toluene/Activated Carbon System ..21

Adsorption of Selenium on Hydrous Alumina 79

Application of Material Balance Concept in Waste Minimization Assessment of a Metal Finishing Process 202

A Priori Simulation of Tetrachloroethane Transport through Aquifer Material Using an Intraparticle Diffusion Model 9

B

Batch Reactor for Monitoring Process Dynamics During Biodegradation of Volatile Organics, A 174

Biofilter Treatment of Ethanol Vapors167

Biological Vapor-Phase Treatment Using Biofilter and Biotrickling Filter Reactors: Practical Operating Regimes 94

C

Cleaning of Flue Gas from Solid Waste Incinerator Plants by Wet/Semi-Dry Process 149

CO_2 Capture From the Flue Gas of Conventional Fossil-Fuel-Fired Power Plants 214

Comparison of adsorption Characteristics for VOCs on Activated Carbon and Oxidized Activated Carbon 31

Comparison of Air Dispersion Modeling Results With Ambient Air Sampling Data: A Case Study at Tacoma Landfill, A National Priorities List Site 155

Content and Fractionation of Heavy Metals in Soils of Two Contaminated Sites in Taiwan 89

E

Effect of Clay Minerals Present in Aquifer Soils on the Adsorption and Desorption of Hydrophobic Organic Compounds..51

Effect of Equilibration Time on Desorption Rate Measurements with Chlorinated Alkenes and Aquifer Particles 1

Effects of High Speed Jets and Internal Baffles on the Gas Residence Times in Large Municipal Incinerators 124

Experimental and Modeled results Describing the Adsorption of Acetone and Benzene onto Activated Carbon Fibers 26

Ex Situ Forced Aeration of Soil Piles: A Physical Model 178

F

Final Disposal of VOCs From Industrial Wastewaters 192

M

Mark I Measurement Methodology .for Pollution Prevention Progress Ocurring as a Result of Product Design Decisions, A 232

Measurement of Gas-Liquid Mass Transfer Coefficients for Volatile Organic Compounds in Sewers 114

Mercury Removal From Aqueous Streams Utilizing Microemulsion Liquid Membranes 253

Migration and Sorption of Jet Fuel Cycloalkane and Aromatic Vapors in Unsaturated Soil 290

Modelling the Fate of Chlorinated Phenols in Wastewater Treatment Plants 98

O

Operating Characteristics and Commercial Operating Experience with High Temperature SCR NOx Catalyst 221

P

Parameter Estimation for Trace Element Sorption on a New Granular Iron Oxide 72

PCB Cleanup Using an Oxygen/Fuel-Fired Mobile Incinerator 188

Pollution Prevention Strategies for the Minimizing of Industrial Wastes in the VCM-PVC Industry 269

R

Radiofrequency Ground Heating for Soil Remediation: Science and Engineering 247

Radiolytic Degradation of Dioxin on Soil: Optimal Conditions and Economic Considerations 263

Remediation of a VOC-Contaminated Superfund Site Using Soil Vapor Extraction, Groundwater Extraction, and Treatment: A Case Study 208

Removal of Lead and Cadmium from Aqueous Waste Streams using Granular Activated Carbon (GC) Columns 60

Removing Lead in Drinking Water with Activated Carbon 65

S

Semi-Continuous Evaporation Model for Leachate Treatment Process Evaluation 278

Soil Washing and Radioactive Contamination 138

Sorption and Desorption of Contaminants from Different Host Matrices 37

Supercritical Extraction of Organic Contaminants from Soil Combined with Adsorption onto Activated Carbon 45

U

Update on VOC MACT .Standards 105

Use of Electrochemical Iron Generation for Removing Heavy Metals from Contaminated Groundwater 143

Using Evaporators to Achieve Zero Effluent at a BCTMP Pulp Mill 163

Using Vegetation to Enhance *In Situ* Bioremediation 226

Subjects

A

Activated carbon
adsorption onto 45
fibers 26
oxidized 31
removing lead with 65
VOCs on 31
Adsorption
and desorption 21, 51
of acetone and benzene 26
of selenium 79
Air
dispersion modeling. 155
ambient air sampling data 155
Alumina, hydrous 79
Ambient air sampling data 155
Aqueous waste streams 60
Aquifer
material 9
particles 1
soils 51
Aromatic vapors 290

B

Batch reactor 174
Benzene, adsorption of 26
Biodegradation of volatile organics .174
Biofilter treatment of vapors 167
Bioremediation, *in situ* 226

C

Cadmium and lead, removal of 51
Catalyst, SCR, NO_x 221
Clay minerals, effect of 51
Chlorinated alkenes 1
Contaminants
extraction of organic 45
sorption and desorption of 37
Contamination, radioactive 138
Contaminated groundwater 143

D

Desorption
and adorption 51
and sorption 37
rate measurements 1
Desorption and adsorption studies ...21
Diffusion model, intraparticle 9

E

Effluent, achieving zero 163
Equilibration time, effect of 1
Ethanol vapors, treatment of 167
Evaporators, using at pulp mill 163
Evaporation, semi-continuous 278

F

Forced aeration of soil piles 178
Fibers, activated carbon 26
Flue gas, cleaning of 149
Fossil-fuel-fired power plants 214
Forced aeration of soil piles 178

G

Granular activated carbon columns ..60
Granular iron oxide 72
Ground heating, radiofrequency ...247
Groundwater extraction 208

H

Heavy metals in soils 89
Host matrices, contaminants from ...37
Hydrophobic organic compounds ...51
Hydrous alumina 79

I

Incinerator, oxygen fuel/fired 188
Incinerator plants, cleaning of 149
Intraparticle diffusion model 9
Iron oxide, granular 72
Incinerator(s)
large municipal 124
mobile, PCB cleanup using 188
plants, cleaning flue gas from 149

J

Jet fuel cyclohexane 290

L

Leachate treatment 278
Lead
and cadmium, removal of 60
removing with activated carbon ...65
Liquid membranes, microemulsion . 253

M

"Mark I" measurement methodology 232
Mercury removal 253
Microemulsion membranes 253

O

Organic compounds, hydrophobic ...51
Oxygen fuel/fired incinerator 188

P

PCB cleanup 188
Pollution
methodology for prevention 232
prevention strategies 269
Process dynamics, monitoring 174
Pulp Mill, BCTMP 163

R

Radioactive contamination 138
Radiolytic degradation 263
Radiofrequency ground heating 247

S

Soil piles, forced aeration of 178
Soil(s)
dioxin on 263
forced aeration of soil piles 178
heavy metals in 89
remediation 247
sorption in unsaturated 290
vapor extraction 208
Solid waste, flue gas from 149
Sorption
and desorption 37
in unsaturated soil 290
trace element 72

T

Tacoma landfill, a case study 155
Tetrachloroethane transport 9
Toluene/Activated Carbon System ... 21
Trace Element Sorption 72

V

Vapors
aromatic 290
ethanol 167
VOC (volatile organic compounds)
adsorption characteristics for 31
in sewers 114
remediation of superfund site 208
update on MACT standards 105
Volatile organics 174

W

Waste(s)
aqueous streams 60, 253
industrial, minimizing 269
minimization assessment 202
streams, aqueous 60
Wastewaters, industrial 192
Wet/semi-dry cleaning process 149
